**FILED**

OCT 10 2023

JAN BAILEY  
COURT CLERK  
ROGER MILLS COUNTY

**CLASS REPRESENTATIVE'S MOTION FOR  
FINAL APPROVAL OF  
CLASS ACTION SETTLEMENT**

Plaintiff, Suzanne Broadbent ("Class Representative"), as Class Representative for the Settlement Class, respectfully moves this Court for Final Approval of the:

1. Proposed Class Action Settlement;
2. Notice of Settlement and Plan of Notice; and
3. Proposed Allocation Methodology and Initial Plan of Allocation.

Plaintiff bases this Motion on the Settlement Agreement, applicable law, and all pleadings and records on file in this matter, which are respectfully incorporated by reference as if fully set forth herein. The Parties' agreed proposed Judgment is attached hereto as Exhibit A<sup>1</sup>, and the parties will provide the Court with a finalized version and exhibits at the Final Fairness Hearing on November 14, 2023, at which point the Exclusion and Objection deadlines will have passed. An Initial Plan of Allocation is attached hereto as Exhibit B. With no objections being filed or received by Class Counsel to date and with only seven (7)<sup>2</sup> of the more than 15,500 class members purporting to opt-out as of this filing, Class Representative submits that

---

<sup>1</sup> The proposed Judgment was also attached to the Settlement Agreement as Ex. 2.

<sup>2</sup> Although there are seven (7) total owner opt-outs received to date, these opt-outs were in two (2) distinct groups. The first group are individuals or entities associated with Kaiser-Francis Oil Company which has itself settled a class action case for claims identical to the claims here (*Pauper Petroleum LLC v. Kaiser-Francis Oil Company*, N.D. Okla., Case No. 19-CV-514-HFH-JFJ). The second group of entities are affiliated with JMA Energy Company, LLC, which also has also settled a class action asserting claims identical to the claims herein. (*Speed v. JMA Energy Company, LLC*, Hughes County Dist. Court Case No. CJ-2016-59).

the Settlement is fair, reasonable, and adequate and should be finally approved. Ex. C, Declaration of Suzanne Broadbent (“Class Rep. Decl.”).<sup>3</sup>

### **BACKGROUND**

In the interest of brevity, Class Representative will not recite the entire background of this case again. Rather, Class Representative refers the Court to the Motion for Preliminary Approval filed herein on August 14, 2023, the Joint Declaration of Class Counsel (“Joint Counsel Decl.”) (Ex. D), the pleadings on file, and any other matters of which the Court may take judicial notice, all of which are incorporated as if fully set out in this memorandum.

On August 21, 2023, the Court issued an order preliminarily approving the settlement, approving the form of notice, and setting a date of November 14, 2023, for the Final Fairness Hearing. (“Preliminary Approval Order”). The Court also approved the Notice of Proposed Settlement of Class Action (“Class Notices”), one form for mailing, one for publication, and a long form for posting on the website. The Court ordered that Notice be given to the Class members in accordance with the Plan of Notice as outlined in the Settlement Agreement and found that the Notices being provided “is the best notice practicable under the circumstances.” *Id.* ¶¶ 8–9. Since preliminary approval, Notice was mailed, by first-class mail, as ordered by the Court, to 15,530 members of the Settlement. Ex. E, Declaration of Scott Fenwick (“Fenwick Decl.”) ¶¶ 7–8. And Notice was published on September 9, 2023, in *The Tulsa World*, September 12, 2023, in *The Oklahoman*, and September 14, 2023, in the *Cheyenne Star* and as directed in the Preliminary Approval Order and as reflected in the Affidavits of Publication on filed herein.

Only seven (7) requests for exclusion and no objections have been received as of the time of this filing.<sup>4</sup> The small number of purported opt-outs to the Settlement support the conclusion that the Settlement is fair, adequate, reasonable and in the best interests of the Settlement Class such that final approval should

---

<sup>3</sup> Capitalized terms not otherwise defined shall have the meaning ascribed to them in the Settlement Agreement.

<sup>4</sup> Because this Motion is due prior to the objection deadline (October 24, 2023), Class Representative will subsequently submit a supplement detailing all requests for exclusion and objections received and indicate those that were properly submitted.

be granted.

### **ARGUMENT & AUTHORITY**

**1. The Court Properly Certified the Settlement Class for Settlement Purposes and Should Confirm this Finding by Finally Certifying the Settlement Class Under 12 O.S. §2023.**

Before addressing the reasonableness of the terms of the settlement itself, the Court must find class certification remains appropriate for settlement purposes. The Court certified the following Settlement Class in the Preliminary Approval Order:

All non-excluded persons or entities to whom Presidio: (1) made Late Payments for oil and gas proceeds from Oklahoma wells during the Claim Period, and (2) the payments did not include statutory interest under Oklahoma’s Production Revenue Standards Act (“PRSA”), 52 O.S. § 570.1 *et seq.* A “Late Payment” for purposes of this class definition means payment of proceeds during the Claim Period from the sale of production from an Oklahoma oil and/or gas well after the statutory periods identified in 52 O.S. § 570.10. Late Payments do not include any payment made on account of prior period adjustments.

Excluded from this class are: (1) Defendant, its affiliates, predecessors, and employees, officers, and directors; (2) agencies, departments, or instrumentalities of the United States of America or the State of Oklahoma; (3) any Indian Tribe as defined at 30 U.S.C. § 1702(4) or Indian allottee as defined at 30 U.S.C. § 1702(2); (4) publicly traded oil and gas companies and their affiliates; (5) officers of the court; and (6) Dan McClure, Kelly McClure Callant, FourPoint Energy, LLC, and Unbridled Resources, LLC.

The Claim Period means payments made or issued by Defendant dated between January 25, 2018, and November 30, 2022, subject to the terms of the Settlement Agreement regarding Released Claims.

For the reasons set forth in Class Representative’s Motion for Preliminary Approval filed herein on August 14, 2023, certification remains proper under 12 O.S. §2023 for settlement purposes and Defendant has consented to certification of the Settlement Class for the purpose of settlement in the Settlement Agreement.

**2. The Court Should Grant Final Approval of the Settlement**

The Court should finally approve the Settlement as fair and reasonable. The Settlement in this case is fair, reasonable, and in the best interest of the Settlement Class given the risks attendant with the alternative of contested litigation of the disputed claims herein. Courts generally favor settlement as an efficient means of resolving class action matters. *See, e.g., In re Global Crossing Sec. & ERISA Litig.*, 225 F.R.D. 436, 455 (S.D.N.Y. 2004) (“As a general policy matter, federal courts favor settlement, especially

in complex and large-scale disputes, so as to encourage compromise and conserve judicial and private resources.”); *see also In re Warfarin Sodium Antitrust Litig.*, 391 F.3d 516, 535 (3d Cir. 2004) (“[T]here is an overriding public interest in settling class action litigation, and it should therefore be encouraged.”).

**A. The Settlement is the product of extensive arm’s-length negotiations between experienced counsel**

The fact that the Settlement was fairly and honestly negotiated by qualified, experienced counsel supports final approval. *See Reed v. GM Corp.*, 703 F.2d 170, 175 (5th Cir. 1983) (“[T]he value of the assessment of able counsel negotiating at arm’s length cannot be gainsaid.”). The fairness of the negotiation process is to be examined with reference to the experience of counsel, the vigor with which the case was prosecuted, and any coercion or collusion that may have affected the negotiations.

Here, the Settlement is the product of extensive arm’s-length negotiations between the Parties’ experienced counsel at a mediation presided over by experienced mediator Bradley Gungoll. *See Ex. D*, Joint Counsel Decl. ¶ 10. The use of a formal settlement process supports the conclusion that the Settlement was fairly and honestly negotiated. *See Ashley v. Reg’l Transp. Dist.*, No. 05-CV-01567-WYD-BNB, 2008 WL 384579, at \*6 (D. Colo. Feb. 11, 2008) (finding settlement fairly and honestly negotiated where the parties engaged in formal settlement mediation conference and negotiations over four months). And, the assistance of an experienced mediator “in the settlement negotiations strongly supports a finding that they were conducted at arm’s-length and without collusion.” *In re Telik, Inc. Sec. Litig.*, 576 F. Supp. 2d 570, 576 (S.D.N.Y. 2008). Here the parties engaged an experienced mediator whose involvement helped them reach a settlement.

Additionally, Class Counsel are experienced and qualified counsel and represented the Settlement Class honestly and fairly during settlement negotiations. *See Ex. D*, Joint Counsel Decl. ¶¶ 1–3. Class Counsel’s experience positioned them well to review the information and data produced in this litigation, enabling the Parties to make informed decisions about the strengths and weaknesses of their respective cases. Further, Class Representative was involved in the negotiations and believes the settlement process resulted in an excellent Settlement for the Settlement Classes. *See Ex. C*, Class Rep. Decl.. Class Representative expended time and resources prosecuting the Litigation, including communicating regularly

with Class Counsel, and participating in the negotiations that led to the Settlement. *Id.* The Parties and their lawyers were well prepared for the serious and intelligent negotiations that ultimately led to the Settlement.

These facts demonstrate the Settlement resulted from serious, informed, and non-collusive negotiations between skilled and dedicated attorneys. The first factor supports final approval.

**B. Questions law and fact exist, placing the ultimate outcome in doubt**

The existence of serious questions of law and fact place the ultimate outcome of this Litigation in doubt, and such doubt “tips the balance in favor of settlement because settlement creates a certainty of some recovery and eliminates doubt, meaning the possibility of no recovery after long and expensive litigation.” *McNeely v. Nat’l Mobile Health Care, LLC*, No. 07-CV-933-M, 2008 WL 4816510, at \*13 (W.D. Okla. Oct. 27, 2008) (internal citations omitted).

There are numerous factual and legal issues about which the Parties disagree—issues that would ultimately be decided by this Court or a jury. For example, Plaintiff’s expert for the purposes of settlement and damage modeling assumed that all interest on allegedly late payments would be calculated at the 12% rate under 52 O.S. §570.10(D)(1). It is undoubted that if this case proceeded on its merits, Defendant would seek to limit the extent of its liability by attempting to prove that some or all of the interest alleged to be owed should be calculated at the lower rates established in 52 O.S. §570.10(D)(2) (6% per annum until November 1, 2018, and prime interest rate as reported in the wall street journal after November 1, 2018) because title to the interests thereto was not marketable. If Defendant was able to successfully prove that proceeds were not paid because title thereto was unmarketable, this showing would have the effect of reducing the amount at issue. In Class Counsels’ experience in these type of cases, late payments are often made for the very reason that the owners lacked marketable title.

Despite Class Representative’s optimism regarding its chances at trial, the Parties vehemently disagree on numerous factual and legal issues, and Defendant denies any wrongdoing giving rise to liability or that this case would be appropriate for certification on a contested basis. Settlement renders the resolution of these issues unnecessary and provides a guaranteed recovery in the face of uncertainty. Because this Litigation presents serious issues of law and fact that place the ultimate outcome in doubt, settlement is appropriate.

**C. The value of immediate recovery outweighs the mere possibility of future relief after long and expensive litigation**

The complexity, uncertainty, expense, and likely duration of further litigation and appeals also support approval of the proposed Settlement. The Settlement Class is “better off receiving compensation now as opposed to being compensated, if at all, several years down the line, after the matter is certified, tried, and all appeals are exhausted.” *See McNeely*, 2008 WL 4816510, at \*13. The Settlement represents a meaningful recovery for the Settlement Class without the risk or additional expense of further litigation. These immediate benefits must be compared to the risk that the Settlement Class may recover nothing after summary judgment, trial, and likely appeals, possibly years into the future. *See In re Sprint Corp. ERISA Litig.*, 443 F. Supp. 2d 1249, 1261 (D. Kan. 2006). Furthermore, the Settlement also provides Future Benefits to the Settlement Class, which are estimated to have a present value of \$930,000. *See Ex. F*, Porter Decl. ¶ 6.

While Class Counsel is confident in their ability to prove the claims asserted, they also recognize liability is far from certain and many potential obstacles to obtaining a final, favorable verdict exist. Even if Class Representative were able to establish liability at trial, Defendant would have vigorously argued the Settlement Class damages are far less than the Settlement and raised a number of defenses to further whittle down the damages – including, as explained above, that interest should be calculated at the lower interest rates established in 52 O.S. §570.10(D)(2). Through the Settlement, the Settlement Class is guaranteed a cash payment without the attendant risks of further litigation.

**D. Class Counsel and Class Representative believe the Settlement is fair and reasonable**

The fact that Class Representative and Class Counsel believe the Settlement is fair and reasonable supports final approval. Class Counsel and Class Representative only agreed to settle the Litigation after considering the substantial benefits the Settlement Class will receive, the risks and uncertainties of continued litigation, and the desirability of proceeding under the terms of the Settlement Agreement.

Class Counsel’s judgment as to the fairness of the Settlement also supports final approval. “Counsel’s judgment as to the fairness of the [settlement] agreement is entitled to considerable weight.” *Childs*, 2011 WL 6016486, at \*14 (citation omitted). Class Counsel believes the terms and conditions of

the Settlement are fair, reasonable, and adequate to the Settlement Classes, and the Settlement is in the Settlement Classes Members' best interests. *See Ex. D*, Joint Counsel Decl. ¶ 14.

**3. The Notice Method Used was the Best Practicable Under the Circumstances and Should be Approved**

The Court should approve the Notice given to the Settlement Class. 12 O.S. §2023 requires notice to be given in a “reasonable manner” to the class members. In terms of due process, a settlement notice need only be “reasonably calculated, under all the circumstances, to apprise interested parties of the pendency of the action and afford them an opportunity to present their objections.” *Fager v. CenturyLink Comm’ns, LLC*, 854 F.3d 1167, 1171 (10th Cir. 2016) (citing *Mullane v. Cent. Hanover Bank & Trust Co.*, 339 U.S. 306, 314 (1950)). “The Supreme Court has consistently endorsed notice by first-class mail”, holding “a fully descriptive notice...sent first-class mail to each class member, with an explanation of the right to ‘opt out,’ satisfies due process.” *Id.* at 1173. The Settlement Administrator in this case was able to reach 95.1% of the potential Class Members in this case with a postcard notice. *See Fenwick Decl.*, Ex. E, ¶ 11. Here, the Notice campaign carried out by Class Counsel and the Settlement Administrator is substantially comparable to and perhaps exceeds the highly successful notice campaigns completed in other oil-and-gas class actions approved by other courts in Oklahoma.

**4. The Court Should Approve the Allocation Methodology and Plan of Allocation.** The Court should also approve the Allocation Methodology and Initial Plan of Allocation. Class Counsel, together with Plaintiff’s expert, have formulated the Plan of Allocation by which Class Members will be receive a distribution proportionate to their individual claims for late payment of proceeds. *See Ex. F*, Porter Decl. at ¶¶ 7-11. As set forth in the Settlement Agreement, those class members who would receive distributions totaling \$5.00 or less, will not receive a distribution. This *de minimus* threshold is important to cut down on the costs of distribution and make distribution ultimately feasible. Importantly, this is not a claims-made settlement, nor is it a settlement where a Class Member must take further action to participate. Instead, every Class Member who did not effectively opt out of the Settlement will receive a check for their final allocation of the Net Settlement Amount. Specifically, in the Initial Plan of Allocation, the Net Settlement

Amount is allocated to individual Class Members based upon the assumption that requests for Attorney's Fees and Case Contribution Award will be granted in full, and that costs will be approved in the amount of \$70,000.00. This plan will need to be adjusted once the final numbers are known. Because the proposed Plan of Allocation was formulated by competent and experienced Counsel and is based on the type and extent of each Class Member's particular loss, the Court should approve it as fair, reasonable, and adequate.

**CONCLUSION**

Class Representative and Class Counsel respectfully request that the Court enter the proposed Order Approving Class Action Settlement and Final Judgment, attached as **Exhibit A**. This Order grants: (1) final certification of the Settlement Class; (2) final approval of the Settlement as fair, reasonable, and adequate, and in the best interests of the Settlement Class; and (3) final approval of the Notice to Class Members. Class Representative and Class Counsel also respectfully request that the Court approve an Initial Plan of Allocation.

**JUDGMENT**

---

This is a class action lawsuit brought by Suzanne Broadbent, on behalf of herself and as representative of a class of owners (defined below), against Presidio Petroleum, LLC (“Defendant”), for the alleged failure to pay statutory interest on payments made outside the time periods set forth in the Production Revenue Standards Act, 52 Okla. St. § 570.1 *et seq.* (the “PRSA”) for oil-and-gas production proceeds from oil and gas wells in Oklahoma. On August \_\_\_\_ 2023, the Parties executed a Stipulation and Agreement of Settlement (the “Settlement Agreement”) finalizing the terms of the Settlement.<sup>1</sup>

On [Month] [Date], 2023, the Court preliminarily approved the Settlement and issued an Order Granting Preliminary Approval of Class Action Settlement, Certifying the Class for Settlement Purposes, Approving Form and Manner of Notice, and Setting Date for Final Fairness Hearing (the “Preliminary Approval Order”). In the Preliminary Approval Order, the Court, *inter alia*:

---

<sup>1</sup> Capitalized terms not otherwise defined in this Order shall have the meaning ascribed to them in the Settlement Agreement.

- a. certified the Settlement Class for settlement purposes, finding all requirements of 12 O.S. § 2023 have been satisfied with respect to the proposed Settlement Class;
- b. appointed Plaintiff Suzanne Broadbent, as Class Representative, Randy C. Smith and David R. Gleason as Co-Lead Class Counsel;
- c. preliminarily found: (i) the proposed Settlement resulted from extensive arm's-length negotiations; (ii) the proposed Settlement was agreed to only after Class Counsel had conducted research regarding the strengths and weaknesses of Class Representative's and the Settlement Class claims; (iii) Class Representative and Class Counsel have concluded that the proposed Settlement is fair, reasonable, and adequate; and (iv) the proposed Settlement is sufficiently fair, reasonable, and adequate to warrant sending notice of the proposed Settlement to the Settlement Class;
- d. preliminarily approved the Settlement as fair, reasonable, and adequate and in the best interest of the Settlement Class;
- e. preliminarily approved the form and manner of the proposed Notices to be communicated to the Settlement Class, finding specifically that such Notices, among other information: (i) described the terms and effect of the Settlement; (ii) notified the Settlement Class that Plaintiff's Counsel will seek Attorneys' Fees, reimbursement of Litigation Expenses and Administration, Notice, and Distribution Costs, and a Case Contribution Award for Class Representative's services; (iii) notified the Settlement Class of the time and place of the Final Fairness Hearing; (iv) described the procedure for requesting exclusion from the Settlement; and (v) described the procedure for objecting to the Settlement or any part thereof;

- f. instructed the Settlement Administrator to disseminate the approved Notices to potential members of the Settlement Class in accordance with the Settlement Agreement and in the manner approved by the Court;
- g. provided for the appointment of a Settlement Administrator;
- h. provided for the appointment of an Escrow Agent;
- i. set the date and time for the Final Fairness Hearing as [Month] [Date], 2023, at \_\_\_\_\_M. in the Roger Mills County Courthouse; and
- j. set out the procedures and deadlines by which Class Members could properly request exclusion from the Settlement Class or object to the Settlement or any part thereof.

After the Court issued the Preliminary Approval Order, due and adequate notice by means of the Notice and Summary Notice was given to the Settlement Class, notifying them of the Settlement and the upcoming Final Fairness Hearing. On [Month] [Day], 2023, in accordance with the Preliminary Approval Order and the Notice, the Court conducted a Final Fairness Hearing to, *inter alia*:

- a. determine whether the Settlement should be approved by the Court as fair, reasonable, and adequate and in the best interests of the Settlement Class;
- b. determine whether the notice method utilized by the Settlement Administrator: (i) constituted the best practicable notice under the circumstances; (ii) constituted notice reasonably calculated under the circumstances to apprise Class Members of the pendency of the Litigation, the Settlement, their right to exclude themselves from the Settlement, their right to object to the Settlement or any part thereof, and their right to appear at the Final Fairness Hearing; (iii) was reasonable and constituted due, adequate, and sufficient notice to all persons and entities entitled

to such notice; and (iv) meets all applicable requirements of the Oklahoma Rules of Civil Procedure and any other applicable law;

c. determine whether to approve the Allocation Methodology, the Plan of Allocation, and distribution of the Net Settlement Fund to Class Members who did not timely submit a valid Request for Exclusion or were not otherwise excluded from the Settlement Class by order of the Court;<sup>2</sup>

d. determine whether a Judgment should be entered pursuant to the Settlement Agreement, *inter alia*, dismissing the Litigation against Defendant with prejudice and extinguishing, releasing, and barring all Released Claims against all Released Parties in accordance with the Settlement Agreement;

e. determine whether the applications for Plaintiff's Attorneys' Fees, reimbursement for Litigation Expenses and Administration, Notice, and Distribution Costs, and Case Contribution Award to Class Representative are fair and reasonable and should be approved;<sup>3</sup> and

f. rule on such other matters as the Court deems appropriate.

The Court, having reviewed the Settlement, the Settlement Agreement, and all related pleadings and filings, and having heard the evidence and argument presented at the Final Fairness Hearing, now **FINDS, ORDERS, and ADJUDGES** as follows:

1. The Court, for purposes of this Final Judgment (the "Judgment"), adopts all defined terms as set forth in the Settlement Agreement and incorporates them as if fully set forth herein.

---

<sup>2</sup> The Court will issue a separate order pertaining to the allocation and distribution of the Net Settlement Proceeds among Class Members (the "Plan of Allocation Order").

<sup>3</sup> The Court will issue separate orders pertaining to Plaintiff's Counsel's request for Attorneys' Fees, reimbursement of Litigation Expenses and Administration, Notice, and Distribution Costs, and Class Representative's request for a Case Contribution Award.

2. The Court has jurisdiction over the subject matter of this Litigation and all matters relating to the Settlement, as well as personal jurisdiction over Defendant and Class Members.

3. The Settlement Class, which was certified in the Court's Preliminary Approval Order, is defined as follows:

All non-excluded persons or entities to whom Presidio: (1) made Late Payments for oil and gas proceeds from Oklahoma wells during the Claim Period, and (2) the payments did not include statutory interest under Oklahoma's Production Revenue Standards Act ("PRSA"), 52 O.S. § 570.1 et seq. A "Late Payment" for purposes of this class definition means payment of proceeds during the Claim Period from the sale of production from an Oklahoma oil and/or gas well after the statutory periods identified in 52 O.S. § 570.10. Late Payments do not include any payment made on account of prior period adjustments.

Excluded from this class are: (1) Defendant, its affiliates, predecessors, and employees, officers, and directors; (2) agencies, departments, or instrumentalities of the United States of America or the State of Oklahoma; (3) any Indian Tribe as defined at 30 U.S.C. § 1702(4) or Indian allottee as defined at 30 U.S.C. § 1702(2); (4) publicly traded oil and gas companies and their affiliates; (5) officers of the court; and (6) Dan McClure, Kelly McClure Callant, FourPoint Energy, LLC, and Unbridled Resources, LLC.

The Claim Period means payments made or issued by Defendant dated between January 25, 2018, and November 30, 2022, subject to the terms of the Settlement Agreement regarding Released Claims.

4. For substantially the same reasons as set out in the Court's Preliminary Approval Order entered on the \_\_\_\_ day of \_\_\_\_\_, 2023, the Court finds that the above-defined Settlement Class should be and is hereby certified for the purposes of entering judgment pursuant to the Settlement Agreement. Specifically, the Court finds that all requirements of 12 O.S. § 2023 have been satisfied for settlement purposes. Because this case has been settled at this stage of the proceedings, the Court does not reach, and makes no ruling either way, as to the issue of whether the Settlement Class could have been certified in this case on a contested basis.

5. The Court finds that the persons and entities identified in the attached **Exhibit 1** have submitted timely and valid Requests for Exclusion and are hereby excluded from the foregoing Settlement Class, will not participate in or be bound by the Settlement, or any part thereof, as

set forth in the Settlement Agreement, and will not be bound by or subject to the releases provided for in this Judgment and the Settlement Agreement.

6. At the Final Fairness Hearing on [Month] [Date], 2023, the Court fulfilled its duties to independently evaluate the fairness, reasonableness, and adequacy of, *inter alia*, the Settlement and the Notice of Settlement provided to the Settlement Class, considering not only the pleadings and arguments of Class Representative and Defendant and their respective Counsel, but also the concerns of any objectors and the interests of all absent Class Members. In so doing, the Court considered arguments that could reasonably be made against, *inter alia*, approving the Settlement and the Notice of Settlement, even if such argument was not actually presented to the Court by pleading or oral argument.

7. The Court further finds that due and proper notice, by means of the Notices, was given to the Settlement Class in conformity with the Settlement Agreement and Preliminary Approval Order. The form, content, and method of communicating the Notices disseminated to the Settlement Class and published pursuant to the Settlement Agreement and the Preliminary Approval Order: (a) constituted the best practicable notice under the circumstances; (b) constituted notice reasonably calculated, under the circumstances, to apprise Class Members of the pendency of the Litigation, the Settlement, their right to exclude themselves from the Settlement, their right to object to the Settlement or any part thereof, and their right to appear at the Final Fairness Hearing; (c) was reasonable and constituted due, adequate, and sufficient notice to all persons and entities entitled to such notice; and (d) met all applicable requirements of the Oklahoma Rules of Civil Procedure, the Due Process Clause of the United States Constitution, the Due Process protections of the State of Oklahoma, and any other applicable law. Therefore, the Court approves the form, manner, and content of the Notice and Summary Notice used by the Parties. The Court further

finds that all Class Members have been afforded a reasonable opportunity to request exclusion from the Settlement Class or object to the Settlement.

8. Pursuant to and in accordance with 12 O.S. § 2023, the Settlement, including, without limitation, the consideration paid by Defendant, the covenants not to sue, the releases, and the dismissal with prejudice of the Released Claims against the Released Parties as set forth in the Settlement Agreement, is finally approved as fair, reasonable and adequate and in the best interests of the Settlement Class. The Settlement Agreement was entered into between the Parties at arm's-length and in good faith after substantial negotiations free of collusion. The Settlement fairly reflects the complexity of the Claims, the duration of the Litigation, the extent of discovery, and the balance between the benefits the Settlement provides to the Settlement Class and the risk, cost, and uncertainty associated with further litigation and trial. Serious questions of law and fact remain contested between the parties. The Settlement provides a means of gaining immediate valuable and reasonable compensation and forecloses the prospect of uncertain results after many more months or years of additional discovery and litigation. The considered judgment of the Parties, aided by experienced legal counsel, supports the Settlement.

9. By agreeing to settle the Litigation, Defendant does not admit, and instead specifically denies, that the Litigation could have otherwise been properly maintained as a contested class action, and specifically denies any and all wrongdoing and liability to the Settlement Class, Class Representative, and Class Counsel.

10. The Litigation and Released Claims are dismissed with prejudice as to the Released Parties. All Class Members who have not validly and timely submitted a Request for Exclusion as directed in the Notice of Settlement and Preliminary Approval Order (a) are hereby deemed to have finally, fully, and forever conclusively released, relinquished, and discharged all of the Released Claims against the Released Parties and (b) are barred and permanently enjoined from, directly or

indirectly, on any Class Member's behalf or through others, suing, instigating, instituting, or asserting against the Released Parties any claims or actions on or concerning the Released Claims. Neither Party will bear the other's Party's litigation costs, costs of court, or attorney's fees.

11. The Court also approves the efforts and activities of the Settlement Administrator and the Escrow Agent in assisting with certain aspects of the administration of the Settlement, and directs them to continue to assist Class Representative in completing the administration and distribution of the Settlement in accordance with the Settlement Agreement, this Judgment, any Plan of Allocation approved by the Court, and the Court's other orders.

12. Nothing in this Judgment shall bar any action or claim by Class Representative or Defendant to enforce or effectuate the terms of the Settlement Agreement or this Judgment.

13. The Settlement Administrator is directed to refund to Defendant the portions of the Net Settlement Fund attributable to Class Members who timely and properly submitted a Request for Exclusion to the extent that such funds exceed 5% of the Gross Settlement Fund in accordance with the terms and process of the Settlement Agreement.

14. Entering into or carrying out the Settlement Agreement, and any negotiations or proceedings related thereto, and the Settlement Agreement itself, are not, and shall not be construed as, or deemed to be evidence of, an admission or concession by any of the Parties to the Settlement Agreement. Further, this Final Judgment shall not give rise to any collateral estoppel effect as to the certifiability of any class in any other proceeding.

15. As separately set forth in detail in the Court's Plan of Allocation Order(s), the Allocation Methodology, the Plan of Allocation, and distribution of the Net Settlement Fund among Class Members who were not excluded from the Settlement Class by timely submitting a valid Request for Exclusion or other order of the Court are approved as fair, reasonable and adequate,

and Class Counsel and the Settlement Administrator are directed to administer the Settlement in accordance with the Plan of Allocation Order(s) entered by the Court.

16. The Court finds that Class Representative, Defendant, and their Counsel have complied with the requirements of the Oklahoma Rules of Civil Procedure as to all proceedings and filings in this Litigation. The Court further finds that Class Representative and Class Counsel adequately represented the Settlement Class in entering into and implementing the Settlement.

17. Neither Defendant nor Defendant's Counsel shall have any liability or responsibility to Plaintiff, Plaintiff's Counsel, or the Settlement Class with respect to the Gross Settlement Fund or its administration, including but not limiting to any distributions made by the Escrow Agent or Settlement Administrator. Except as described in paragraph 6.19 of the Settlement Agreement, no Class Member shall have any claim against Plaintiff, Plaintiff's Counsel, the Settlement Administrator, the Escrow Agent, or any of their respective designees or agents based on the distributions made substantially in accordance with the Settlement Agreement, the Court's Plan of Allocation Order(s), or other orders of the Court.

18. Any Class Member who receives a Distribution Check that he/she/it is not legally entitled to receive is hereby ordered to either (a) pay the appropriate portion(s) of the Distribution Check to the person(s) legally entitled to receive such portion(s) or (b) return the Distribution Check uncashed to the Settlement Administrator.

19. All matters regarding the administration of the Escrow Account and the taxation of funds in the Escrow Account or distributed from the Escrow Account shall be handled in accordance with the Settlement Agreement.

20. Any order approving or modifying any Plan of Allocation Order, the application by Class Counsel for an award of Attorneys' Fees or reimbursement of Litigation Expenses and Administration, Notice, and Distribution Costs, or the request of Class Representatives for a Case

Contribution Award shall be handled in accordance with the Settlement Agreement and the documents referenced therein (to the extent the Settlement Agreement and documents referenced therein address such an order).

21. Plaintiff's Counsel, Plaintiff, and the Settlement Class will only be liable for loss of any portion of the Escrow Account as described in paragraph 6.19 of the Settlement Agreement. Defendant shall have no liability for any such loss.

22. Without affecting the finality of this Judgment in any way, the Court (along with any appellate court with power to review the Court's orders and rulings in the Litigation) reserves exclusive and continuing jurisdiction to enter any orders as necessary to administer the Settlement Agreement, including jurisdiction to determine any issues relating to the payment and distribution of the Net Settlement Fund, and to enforce the Judgment.

23. In the event the Settlement is terminated as the result of a successful appeal of this Judgment or does not become Final and Non-Appealable in accordance with the terms of the Settlement Agreement for any reason whatsoever, then this Judgment and all orders previously entered in connection with the Settlement shall be rendered null and void and shall be vacated. The provisions of the Settlement Agreement relating to termination of the Settlement Agreement shall be complied with, including the refund of amounts in the Escrow Account to Defendant.

24. Without affecting the finality of this Judgment in any way, the Court (along with any appellate court with power to review the Court's orders and rulings in the Litigation) reserves exclusive and continuing jurisdiction to enter any orders as necessary to administer the Settlement Agreement, including jurisdiction to determine any issues relating to the payment and distribution of the Net Settlement Fund, to issue additional orders pertaining to, *inter alia*, Class Counsel's request for Plaintiff's Attorneys' Fees and reimbursement of reasonable Litigation Expenses and

Administration, Notice, and Distribution Costs, and Class Representative's request for a Case Contribution Award, and to enforce this Final Judgment. Notwithstanding the Court's jurisdiction to issue additional orders in this Litigation, this Judgment fully disposes of all claims as to Defendant and is therefore a final appealable judgment. The Court further hereby expressly directs the Clerk of the Court to file this Judgment as a final order and final judgment in this Litigation.

25. [IF OBJECTION(S) ARE MADE – ADDITIONAL LANGUAGE TO BE DETERMINED BASED ON OBJECTION(S)]

IT IS SO ORDERED this \_\_\_ day of \_\_\_\_\_, 2023.

**INITIAL PLAN OF ALLOCATION**

This Initial Plan of Allocation sets forth the manner in which the Net Settlement Amount will be administered and distributed to the Settlement Class on a preliminary basis. The Net Settlement Amount for Distribution will be allocated to each final Class Member based on the factors and considerations set forth herein.<sup>1</sup>

**Plan of Allocation**

The Net Settlement Amount available for Distribution will be allocated proportionately among final Class Members based upon the total amount of each Class Member’s potential claim for interest under the Production Revenue Standards Act calculated at 12.00% per annum on payments occurring later than 60 days (or 90 days for Blanchard interests) after the date of sale of the oil and gas production. No distributions will be allocated or made to Class Members who would otherwise receive a “de minimis” payment of \$5.00 or less. Pursuant to the Settlement Agreement, the Plan of Allocation reduces the amount available for distribution for Class Counsel’s Fees and Expenses and Administration, Notice, and Distribution Costs, which amounts were preliminarily determined by the Court at the Final Fairness Hearing and which shall be set forth in further detail in a

**DECLARATION OF CLASS REPRESENTATIVE  
IN SUPPORT OF FINAL APPROVAL MOTIONS**

---

I, Suzanne Broadbent, of lawful age, upon personal knowledge, and pursuant to 12 OK Stat. § 426, declare as follows:

1. I have personal knowledge of the facts set out in this declaration based upon my involvement in the Litigation and on information provided to me by Class Counsel.<sup>1</sup>
2. I respectfully submit this declaration in support of the forthcoming motions for Final Approval of Class Action Settlement and for Plaintiff's Attorneys' Fees, Reimbursement of Litigation Expenses and Administration, Notice, and Distribution Costs, and Case Contribution Award.
3. By submitting this declaration, I do not intend to, nor do I, waive any protections available to me, including, the attorney-client privilege, work product privilege, or any other privileges which may apply.

---

<sup>1</sup> Capitalized terms not otherwise defined shall have the meaning ascribed to them in the Settlement Agreement.

**EXHIBIT**

    C

4. I own interests in Presidio operated oil-and-gas wells and was paid oil-and-gas proceeds by Presidio. Presidio paid me outside the timelines required by Oklahoma law without paying statutory interest to me on these late payments.

5. I sought legal advice from counsel experienced in investigating oil-and-gas payment practices in Oklahoma concerning Presidio's payments to me. After discussions with Class Counsel, I decided to retain them to initiate and prosecute this Litigation. As part of that decision, Class Counsel and I discussed my responsibilities as a plaintiff and proposed class representative.

6. I retained Class Counsel because I believe they possess the requisite expertise in complex litigation and have sufficient legal and financial resources to vigorously prosecute this Litigation on my behalf and on behalf of all Class Members against Presidio.

7. With what I learned in conversations with Class Counsel, including the risks and uncertainty associated with the Litigation, the potentially significant expenses Class Counsel might incur, and the high level of representation to be provided by Class Counsel, I agreed that Class Counsel would represent me on a contingency fee basis of 40% of any recovery obtained. At the time we reached this agreement, I understood a 40% contingency fee was at the market rate for similar actions. I and Class Counsel executed a written agreement that Class Counsel could seek a fee of 40% of any gross recovery, subject to approval by this Court. I understood that Class Counsel would work on a fully contingent basis and that I would not pay hourly rates. It was not economically feasible for me to pay the fees and expenses necessary to litigate this matter to completion on a pay-as-you-go or non-contingent fee structure.

8. I have been involved in this Litigation since before filing the Complaint. By participating in this Litigation, I hoped to obtain a monetary recovery for myself and other Class Members who were paid late by Presidio without statutory interest.

9. I have been active and engaged in this Litigation throughout its course and have regularly communicated with Class Counsel and reviewed documents and provided input where helpful.

10. I sought to understand Class Counsel's work in this case and participated in the decisions to mediate this case and to ultimately enter into the Settlement. I also attended one mediation session to resolve the Litigation.

11. This action has been litigated since the Fall of 2022, which included document productions, reviewing documents and data, consulting with experts, reviewing and analyzing complex and substantial accounting information, creating damages modeling, negotiating a settlement, reviewing settlement documents, and seeking the Court's approval of the Settlement.

12. Throughout the negotiation process, Class Counsel informed me of material developments that occurred and sought and obtained approval to negotiate on behalf of myself and the Settlement Class. Class Counsel acted with my approval in all respects.

13. I believe the negotiation process resulted in an excellent settlement and a significant benefit to the Settlement Class, which provides a Gross Settlement Fund of \$475,000.00, as well as changes to Presidio's practices concerning interest owed on late payments of oil-and-gas proceeds. The cash amount, after reduction for court-approved Plaintiff's Attorneys' Fees, reimbursement of Litigation Expenses, payment of Administration Expenses, Notice and Distribution Costs, and Case Contribution Awards, if any, to me, will be distributed to Class Members if and when the Settlement becomes Final and Non-Appealable. I believe this is a substantial recovery for the Settlement Class.

14. I personally attended and assisted in negotiation of the Settlement at the mediation sessions, all of which took substantial hours of preparation and work.

15. Through my involvement in this Litigation, as well as discussions with Class Counsel, I understand the strengths and weaknesses of the Settlement Class's claims against Presidio.

16. I am uniquely aware of the hurdles the Settlement Class would be required to overcome to prove liability and damages if the Litigation was to be tried rather than settled.

17. My understanding of the facts as they pertain to this Litigation, as well as my interactions with Class Counsel, enables me to recommend approval of the Settlement. The Settlement is a substantial recovery for the Settlement Class under circumstances where it was possible that no recovery at all would be obtained. I fully support this Settlement as fair, reasonable, and adequate for the Settlement Class.

18. I am exceptionally pleased with the efforts of Class Counsel who always conducted themselves with professionalism and diligence while effectively representing the interests of me and the Settlement Class.

19. Class Counsel is collectively applying for an award of Plaintiff's Attorneys' Fees out of the Gross Settlement Fund, as well as reimbursement of Litigation Expenses reasonably and necessarily incurred in successfully prosecuting the claims in this Litigation. Because of Class Counsel's extensive, efficient, and excellent work, I approve of Class Counsel's application for a fee award equal to 35% of the Gross Settlement Fund, subject to the terms of the Settlement Agreement and this Court's orders.

20. Class Counsel's request for Plaintiff's Attorneys' Fees is *less than* our negotiated fee agreement. I am very pleased with how Class Counsel conducted the Litigation and with the results achieved. Further, I support Class Counsel's request for reimbursement of Litigation Expenses because I believe Class Counsel has prosecuted this Litigation in an efficient manner given its complexities and has incurred significant, yet reasonable and necessary, expenses.

21. I understand that if the award is granted, reimbursed Litigation Expenses will be paid to Class Counsel out of the Gross Settlement Fund.

22. While I will only recover my pro rata share of the Net Settlement Fund, I intend to seek a Case Contribution Award for my representation of the Settlement Class. The court-approved Class Notices states that I will seek a Case Contribution Award of up to \$12,000.00 to compensate me for my investment of time and resources.

23. I request that the Court award me a Case Contribution Award of \$10,000.00 for the time that I have dedicated to the Litigation, as well as the expense, risk, and burden of serving as the class representative in the Litigation, and a reasonable estimate of the time to be dedicated to the Litigation through the final distribution of the Net Settlement Fund. I believe that such an award is justified in this case, as I dedicated significant hours to assisting Class Counsel to secure the recovery obtained by the Settlement as substantially reflected on Broadbent Ex. 1 attached hereto, and I expect to dedicate additional hours of time before this matter is fully concluded.

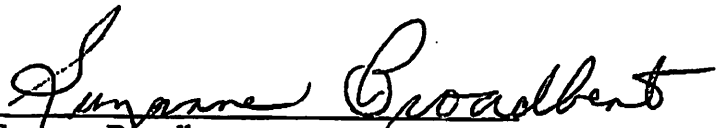

24. I am not aware of any conflicts of interest with members of the Settlement Class. I was not promised any recovery or made any guarantees prior to filing this Litigation, nor at any time during the Litigation.

25. Based on these efforts and the benefits obtained for the Settlement Class, I submit that the requested Case Contribution Award is fair and reasonable as compensation for the time and expense incurred to obtain the Settlement on behalf of the Settlement Class.

25. Based on these efforts and the benefits obtained for the Settlement Class, I submit that the requested Case Contribution Award is fair and reasonable as compensation for the time and expense incurred to obtain the Settlement on behalf of the Settlement Class.

**CERTIFICATION**

I state under penalty of perjury under the laws of the State of Oklahoma that the foregoing is true and correct and that this Declaration was executed on October 9, 2023, in Oklahoma City, Oklahoma.

**JOINT DECLARATION OF CLASS COUNSEL IN SUPPORT OF  
MOTION FOR FINAL APPROVAL OF CLASS ACTION SETTLEMENT AND  
MOTION FOR APPROVAL OF ATTORNEYS' FEES, LITIGATION EXPENSES, AND  
CASE CONTRIBUTION AWARD**

---

The undersigned Class Counsel jointly submit this declaration under penalty of perjury in support of Class Representative Suzanne Broadbent's ("Class Representative") Motion for Final Approval of the Class Settlement and Class Representative's Motion for Approval of Attorneys' Fees, Litigation Expenses, and Case Contribution Award, which are filed contemporaneously with this declaration.<sup>1</sup> The statements made are based upon the personal knowledge and information for each of us.

**BACKGROUND**

***Attorney Information***

1. Randy C. Smith, of Randy C. Smith, PLLC, in Oklahoma City, Oklahoma, primarily litigates complex oil-and-gas matters. Mr. Smith is actively litigating other putative class action matters involving allegations of late payments of oil-and-gas proceeds under the Oklahoma Production Revenue Standards Act.

---

<sup>1</sup> Capitalized terms not otherwise defined shall have the meaning ascribed to them in the Settlement Agreement.

2. David R. Gleason is an attorney at the firm of Moricoli Kellogg & Gleason, P.C., which focuses on complex commercial litigation and oil and gas regulatory and environmental compliance. Mr. Gleason graduated with honors from the Oklahoma College of Law where he was Order of the Coif and a member of the Oklahoma Law Review. Mr. Gleason is the current secretary for the Energy and Natural Resources Law Section of the Oklahoma Bar Association. Mr. Gleason has prior experience as class counsel with oil-and-gas class actions pursuant to the Production Revenue Standards Act. *Hay Creek Royalties, LLC v. Roan Resources, LLC*, No. 19-CV-177-CVE-JFJ (N.D. Okla. 2021) (appointed additional class counsel; \$20.2 million approved class settlement); *Hay Creek Royalties LLC v. Mewbourne Oil Company*, Case No. CIV-20-1199-F (E.D. Oklahoma 2022) appointed additional class counsel, \$3.95 million approved class settlement); *Kenny Wayne Rounds and Randy Carl Smith v. Fourpoint Energy, LLC*, Case No. CIV-20-00052-P (W.D. Okla. 2022) (appointed additional class counsel; \$3.65 million approved class settlement). Mr. Gleason is currently litigating another class action case in the Eastern District of Oklahoma pursuing identical claims to the claims in the current action. More information about Mr. Gleason may be found on his firm website, [www.moricoli.com](http://www.moricoli.com).

3. As Co-Lead Class Counsel, we have achieved an exceptional result, obtaining a settlement with an upfront cash payment of \$475,000.00. In addition to that cash payment, the settlement will result in Future Benefits with an estimated present worth of approximately \$930,000.00 to the Class over the next five (5) years. *See* Porter Decl. ¶ 6. All told, the Gross Settlement Value of the Settlement is \$1,405,000.00. *Id.*

***Work Completed Before Filing Suit***

4. Prior to the filing of the Litigation, Class Counsel investigated the payment practices of Presidio Petroleum, LLC (“Defendant”), met with the Class Representative, reviewed the

Class Representative's oil and gas lease, payment history, relevant title and well history, as well as publicly available information about the Defendant.

5. We also reviewed prior and pending cases related to the claims at issue in this case, and we relied upon our experience in cases of this kind.

6. Based on our review and analysis, and after discussing the same with our client, we filed the initial Petition in this case on October 5, 2022

7. **Discovery and Review of Payment History.** On November 29, 2022, Class Counsel issued discovery requests aimed at key documents and information in this case. Defendant sought an extension of its time to respond in order for the parties to begin the process of settlement discussions.

8. On or about January 30, 2023, Defendant provided Class Counsel with the details necessary to analyze the history of late payments to Class Members during the Claim Period. Class Counsel reviewed this information and asked Defendant to provide revised calculations and additional information. Although the parties had certain disagreements about the methodology of calculating the interest allegedly owed, the parties worked cooperatively for settlement purposes to come to a consensus on the sum of interest which Plaintiff alleged to be owed.

9. Class Counsel then worked with their consulting expert, Royce Porter, to verify the information and calculations provided by Defendant and to prepare a damage model.

10. **Mediation.** Class Counsel prepared a mediation statement for Brad Gungoll and engaged in pre-mediation discussions with the mediator and opposing counsel to advance the prospect of class-wide settlement. This effort included coming to an agreement on key terms of a tentative settlement before attending the mediation.

11. Class Counsel and Class Representative attended the mediation at Mr. Gungoll's office on June 21, 2023, in Oklahoma City, Oklahoma.

12. The parties concluded the mediation with the essential terms of a settlement, and Class Counsel was tasked with drafting the extensive settlement agreement documents to flesh out the process for submission of the class action settlement for approval.

13. **Settlement Agreement.** The Parties then spent over a month drafting and negotiating the Settlement Agreement, including the associated proposed orders, exhibits, and other documents, and the exchange of redlines of each these documents. When all material terms had been documented, the Parties executed the Settlement Agreement effective on August 4, 2023.

14. The Settlement Agreement was negotiated in good-faith and at arm's length. In our opinion, the Settlement Agreement is fair and reasonable given the prospect of continued litigation and the attendant risks.

15. Class Counsel then obtained bids from and negotiated with several class action settlement administration companies in an effort to lower the cost of administering the settlement in this case.

16. **Preliminary Approval of the Settlement.** Class Counsel then spent a significant amount of time drafting the Motion for Preliminary Approval, which was filed on August 14, 2023. After holding a video hearing, the Court entered the Preliminary Approval Order on August 21, 2023, kicking off implementation of the notice campaign and other settlement approval efforts.

17. **Notice Campaign.** Class Counsel then worked with the Settlement Administrator to carry out the Notice campaign, which is detailed in the Settlement Administrator's Declaration. These efforts took continuous communication and effort to effectuate the Notice campaign in accordance with the Court's Preliminary Approval Order and the terms of the Settlement Agreement. We have also received direct communications from Class Members, which we promptly answered to advise as to any questions posed by those Class Members. Based on our prior experience, we anticipate fielding many additional inquiries from Class Members prior to, and perhaps even subsequent to, the Final Fairness Hearing.

#### ***Attorney's Fees***

18. Class Representative negotiated a contract to prosecute this case on a fully contingent basis, with a fee arrangement of 40% of any recovery obtained for the putative class after the filing of the Litigation. Class Counsel also agreed to advance all necessary expenses to pursue the Litigation.

19. Numerous state and federal courts in Oklahoma, have awarded a 40% contingent fee in Oklahoma oil-and-gas class action litigation. *See, e.g., Chieftain Royalty Co. v. Newfield Exploration Mid-Continent Inc.*, No. 17-CV-336-KEW (E.D. Okla. Mar. 3, 2020), Doc. 71 at 14 (“I find this fee [40%] is consistent with the market rate and is in the range of the ‘customary fee’ in oil and gas class actions in Oklahoma state courts over the past fifteen (15) years.”) and cases cited in the Motion for Approval of Attorney’s Fees.

20. Despite negotiating with the Class Representative for a 40% contingency fee, Class Counsel has voluntarily agreed to reduce their fee request to a 35% contingency fee.

21. Based upon our experience, knowledge, education, study, and professional qualifications, we believe that a 35% contingent fee is fair and reasonable in this case.

22. Because a contingent fee is set in the marketplace and is definitive evidence of the reasonable and fair percentage fee at the time the risk is undertaken and largely unknown, courts often focus on the contingent fee class action agreement to set the fee for the entire class.

***Factors enumerated in 12 O.S. §2023(G)***

23. **The time and labor required.** Class Counsel have expended and will continue to expend substantial time and resources for the benefit of the Settlement Class. Class Counsel has expended 185.1 hours to date in this litigation and reasonably anticipate expending an additional 60 hours of time to complete this litigation and fully administer the Settlement.

24. **The novelty and difficulty of the questions presented by the litigation.** Oil-and-gas class actions are difficult and complex enough that very few law firms undertake them. *See Chieftain*, No. 17-CV-336-KEW (E.D. Okla. Mar. 3, 2020) at 10 (“Class actions are known to be complex and vigorously contested . . . The legal and factual issues litigated in this case involved complex and highly technical issues.”). As far as Class Counsel is aware, only one class action

has been certified on a contested basis for late payments of oil and gas proceeds under the Production Revenue Standards Act and it is anticipated that an appeal from that matter will be forthcoming. *See Cline v. Sunoco, Inc.*, No. 6:17-cv-313-JAG (E.D. Okla. Aug 27, 2020).<sup>2</sup> Therefore, class action cases under the Oklahoma Production Revenue Standards Act can be considered novel. This factor supports the fee request.

25. **The skill required to perform the legal services properly.** Hopefully the skill required to perform the legal service was apparent to the Court. Class actions are inherently difficult and generally hard fought. Oil-and-gas litigation is as well. Combined, the two areas of law require substantial skill and diligence. Very few firms even undertake such litigation.

26. **The preclusion of other employment by the attorney due to the acceptance of the case.** It is common knowledge that the longer a case goes on the more other legal business it precludes since a lawyer and a law firm only have a finite amount of time to offer. The hours that Class Counsel invested in this litigation are hours that counsel could have spent on regular hourly matters where the risk of non-payment is low or non-existent. Additionally, had Class Counsel spent the time invested in this matter on other hourly-fee based work, Class Counsel would have been paid typically monthly for such work. Therefore, by taking this case on a contingency fee, Class Counsel has not only had to accept the risk of non-payment, but has also had to defer payment until the conclusion of this matter. This factor supports the fee request.

27. **The customary fee.** Oil and gas class action cases in Oklahoma are always taken on a contingency fee. *See* Judgment entered in *Strack v. Continental Resources Inc.*, Case No. CJ-10-75, Blaine County Oklahoma, on August 18, 2021, ¶46 (“These types of cases are never taken

---

<sup>2</sup> Other contested class action certifications may have included interest as a component of damages for cases seeking class certification based primarily on other theories of recovery including underpayment of royalties. The *Cline* case is the only case which Class Counsel is aware of which was certified in a contested proceeding solely for late payment claims under the Production Revenue Standards Act.

on an hourly basis.”). As shown above and discussed in the Motion for Approval of Attorney’s Fees, the customary fee is 40%. Sometimes more is awarded if counsel must go through trial or handle the case on appeal. Sometimes less is awarded if the case is a mega fund case. This case is neither. This factor supports the fee request.

28. **Whether the fee is fixed or contingent.** This factor is the only one in the disjunctive—fixed “or” contingent. It is important to preserve the parties’ expectations in their representation agreement. In a contingent fee context, a poor result means a poor fee (regardless of how long or hard the attorney worked, or how much skill displayed). A loss means no fee and usually the attorney “eats” the out-of-pocket expenses too. *See Chieftain*, No. 17-CV-336-KEW (E.D. Okla. Mar. 3, 2020), Doc. 71 at 17 (“If Class Counsel had not been successful, they would have received zero compensation (not to mention reimbursement for expenses).”). When successful, a contingent fee must significantly exceed an hourly fee to recognize the risk of a substantial financial loss if the plaintiff is unsuccessful and the delay in compensation until the conclusion of the matter. Both types of fee structures are used in different settings, and both are ethical, legal, and reasonable. The fee in this case was a contingent fee case. This factor supports the fee request.

29. **Time limitations imposed by the client or the circumstances.** This was not a major factor in this case. Obviously, any hours that Class Counsel spent working on this case were hours that could not be devoted to hourly business.

30. **The amount in controversy and the results obtained.** Based upon Class Counsel’s calculations, in consultation with their consulting expert, the maximum total principal sum of interest at issue in this case (taking into account agreed upon class exclusions) was approximately \$721,000 – calculating all interest at the 12% rate and not including interest on interest. In negotiating the Settlement, the Parties had varying damage models, as is customary in this type of

litigation. Defendant, of course, asserted many defenses to liability for the claims asserted in the case. Class Counsel was cognizant of the risk that Defendant may ultimately prove that some portion of late payments were made because title was unmarketable, and therefore some portion of the damages would ultimately be calculated at the lower interest rates set forth in 52 O.S. 570.10(3)(2)(a) (6% for time periods prior to November 1, 2018, and prime interest rate as reported in Wall Street Journal for time periods thereafter). Based upon the above consideration, the \$475,000.00 cash settlement represents a significant portion of Plaintiff's damages model and a reasonable compromise of a disputed claim.

31. **The experience, reputation, and ability of the attorney.** As discussed *supra*, Class Counsel has prior experience in class action cases asserting claims under the Production Revenue Standards Act. *See supra* ¶¶ 1–2. Our experience and skill have served the Class Members well, meriting an award of fees as requested. Moreover, in this case, we faced opposition from experienced counsel from one of the largest law firms in the state of Oklahoma which is regularly hired by large, sophisticated corporate defendants. This factor supports the fee request.

32. **Whether or not the case is an undesirable case.** Very few attorneys have the desire to take the risk involved in class actions. That is even more so in oil-and-gas class actions, where a litigation battle is waged against a well-financed oil and gas company. *See, e.g., See Chieftain*, No. 17-CV-336-KEW (E.D. Okla. Mar. 3, 2020), Doc. 71 at 18 (“Compared to most civil litigation, this Litigation clearly fits the “undesirable” test and no other firms or plaintiffs have asserted these claims against Newfield . . . Few law firms would be willing to risk investing the time, trouble and expenses necessary to prosecute this Litigation[.]”). This factor supports the fee request.

33. **The nature and length of the professional relationship with the client.** This factor has little if any relevance here, but still supports the requested award. We met and worked with

Class Representative throughout the Litigation to prosecute these claims and Class Representative zealously represented the Class. This factor supports the fee request.

34. **Awards in similar cases.** As discussed in the Motion filed with this Declaration, we believe that the usual fee in the context of oil-and-gas class action litigation like this is 40%. In this case, although agreeing at the outset to a 40% fee with Class Representative, we have voluntarily agreed to reduce our fee request to 35% of the cash component of the Settlement. This factor supports the fee request.

35. **The risk of recovery in the litigation.** The risk of no recovery was substantial. Many oil-and-gas class actions have met with no class certification and, as a result, no recovery. And, of course, trial and the inevitable appeal is always risky. In addition, the risk of bankruptcy is ever present in oil-and-gas class actions. This factor supports the fee request.

36. Overall, the factors, and certainly the most important factors, support a 35% fee.

***Litigation Expenses***

37. To date, Class Counsel has advanced the followed expenses in connection with the Litigation, and we believe that all of the expenses were necessary to the successful conclusion of this case.

<b>Expense</b>	<b>Description</b>	<b>Total</b>
Filing Fees/Court Costs	Court Clerk Fees of Petition & Summons	\$239.14
Expert Witness Fees	Consulting Expert – Royce Porter with W.A. Waterman & Co. – Review and analyze payment information provided by Defendant; preparation of damage modeling.	\$7,000.00
Mediator Fees	Bradley Gungoll, Mediator – Full Day Mediation split with Defendant	\$1,570.00
Publication Fees	Tulsa World - \$181.75 The Oklahoman - \$151.20 Cheyenne Star - \$151.95	\$484.90
	<b>Total:</b>	<b>\$9,294.04</b>

38. We will incur additional expenses as we prepare for the Settlement Fairness Hearing, including preparation of a preliminary allocation under the Plan of Allocation and a Final Plan of Allocation and Distribution Order. Also, expenses will increase to the extent that bills for expenses have not yet arrived and been catalogued into the presently available number.

39. The most current account of Litigation Expenses will be provided to the Court at the Final Fairness Hearing.

***Administration, Notice, and Distribution Costs***

40. The court-appointed Settlement Administrator, Kroll, has incurred approximately significant costs in connection with the notice campaign in this action. Under the Settlement Agreement, these Administration, Notice, and Distribution Costs are to be paid from the Settlement Proceeds. A current account of Administration, Notice, and Distribution Costs will be provided to the Court in a supplement prior to the Final Fairness Hearing.

***Case Contribution Award***

41. The Class Representative in this Litigation was indispensable. Class Representative engaged experience counsel, significantly assisted with the Litigation, including in discovery efforts, participated in mediation and negotiation of the settlement, and the process for completing and seeking approval of the Settlement. Class Representative has earned a Case Contribution Award. Class Representative requests a \$10,000.00 Case Contribution Award. Having worked with Class Representative throughout the pendency of the Litigation, we fully support this request and believe the time and effort expended by Class Representative merits a Case Contribution Award of this value.

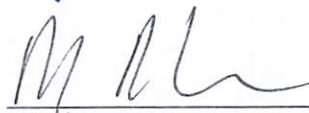

42. Class Counsel have no other agreements regarding this lawsuit with Class Representative other than the 40% contingency fee agreement described herein. Class Counsel have made no agreement with Class Representative to share any of the requested Attorney Fee herein with Class Representative or to provide any other benefits to Class Representative other than: (1) Class Representative's proportionate share, if any, of the common fund as approved by the Court's

Final Plan of Allocation, and (2) any Case Contribution Award the Court may determine is appropriate.

**CERTIFICATION**

I state under penalty of perjury under the laws of the State of Oklahoma that the foregoing is true and correct and that this Declaration was executed on October 9, 2023, in Oklahoma City, Oklahoma.

CASE NO.: CV-2022-15

CLASS ACTION

**DECLARATION OF  
SCOTT M. FENWICK OF KROLL  
SETTLEMENT ADMINISTRATION LLC  
IN CONNECTION WITH FINAL  
APPROVAL OF SETTLEMENT**

Date: November 14, 2023

Time: 9:30 a.m.

The Hon. Jill Weedon

I, Scott M. Fenwick, declare as follows:

### **INTRODUCTION**

1. I am a Senior Director of Kroll Settlement Administration LLC (“Kroll”),<sup>1</sup> the Settlement Administrator appointed in the above-captioned case, whose principal office is located at 2000 Market Street, Suite 2700, Philadelphia, Pennsylvania 19103. I am over 21 years of age and am authorized to make this declaration on behalf of Kroll and myself. The following statements are based on my personal knowledge and information provided by other experienced Kroll employees working under my general supervision. This declaration is being filed in connection with final approval of the Settlement.

2. Kroll has extensive experience in class action matters, having provided services in class action settlements involving antitrust, securities fraud, labor and employment, consumer, and government enforcement matters. Kroll has provided notification and/or claims administration services in more than 3,000 cases.

### **BACKGROUND**

3. Kroll was appointed as the Settlement Administrator to provide notification and administration services in connection with that certain Stipulation and Agreement of Settlement (the “Settlement Agreement”). Kroll’s duties in connection with the Settlement have and will include: (a) receiving and analyzing the Settlement Class contact list (the “Class List”) from Defendant’s Counsel; (b) locating current addresses of any potential Class Members for whom Defendant has not provided an address; (c) creating a settlement website; (d) establishing a toll-free telephone number; (e) establishing a post office box for the receipt of mail; (f) preparing and sending the Notice of Settlement via first-class mail; (g) receiving and processing mail from the United States Postal Service (“USPS”) with forwarding addresses; (h) receiving and processing undeliverable mail, without a forwarding address, from the USPS; and (i) such other tasks as counsel for the Parties or the Court request Kroll to perform.

---

<sup>1</sup> Capitalized terms used but not defined herein shall have the meanings ascribed to them in the Settlement Agreement (as defined below).

## NOTICE PROGRAM

### Data and Case Setup

4. On July 28, 2023, Kroll designated a post office box with the mailing address *Broadbent v. Presidio Petroleum Settlement* c/o Kroll Settlement Administration, PO Box 225391, New York, NY 10150-5391, in order to receive correspondence from Class Members.

5. On August 24, 2023, Kroll created a dedicated Internet website entitled [www.broadbentsettlement.com](http://www.broadbentsettlement.com) (the "Settlement Website"). The Settlement Website "went live" on September 19, 2023, and contains frequently asked questions, important dates and deadlines, and Settlement documents (including the Settlement Agreement, the Preliminary Approval Order, the Amended Class Action Petition, and the Notice of Settlement).

6. On August 24, 2023, Kroll established a toll-free telephone number, (833) 933- 7643, for Settlement Class Members to call and obtain additional information regarding the Settlement through an Interactive Voice Response ("IVR") system or by being connected to a live operator. As of October 9, 2023, the IVR system has received fifty-five (55) calls, and Twenty-nine (29) callers have been connected to live operators.

7. On September 1, 2023, Kroll received one (1) data file from the Defendant. The file contained 16,060 records. Kroll undertook several steps to reconcile the list and compile the eventual Class List for the mailing of the Notice of Settlement postcards. Kroll identified 261 duplicate records, leaving 15,799 unique Class Member records. Kroll was unable to mail to 269 Class Members as a result of an incomplete address. This left the remaining 15,530 Class Members where the Notice of Settlement postcard could be mailed. Additionally, in an effort to ensure that Notice of the Settlement would be deliverable to Class Members, Kroll ran the Class List through the USPS's National Change of Address ("NCOA") database and updated the Class List with address changes received from the NCOA.

## **The Notice Program**

8. On September 20, 2023, Kroll caused 15,530 Notice of Settlement postcards to be mailed via first-class mail. A true and correct copy the Notice of Settlement postcard and the detailed Notice of Settlement available on the Settlement Website are attached hereto as **Exhibits A and B**, respectively.

### **NOTICE PROGRAM REACH**

9. As of October 9, 2023, 126 Notice of Settlement postcards were returned by the USPS with a forwarding address. The 126 Notice of Settlement postcards were automatically re-mailed to the updated addresses provided by the USPS.

10. As of October 9, 2023, 1,144 Notice of Settlement postcards were returned by the USPS as undeliverable as addressed, without a forwarding address. Kroll ran 1,135 undeliverable records through an advanced address search.<sup>2</sup> The advanced address search produced 638 updated addresses. Kroll has re-mailed Notice of Settlement postcards to the 638 updated addresses obtained from the advanced address search.

11. Based on the foregoing, following all Notice of Settlement postcard re-mailings, Kroll has reason to believe that Notice of Settlement postcards likely reached 15,024 of the 15,799 Class Members identified on the Class List, which equates to a reach rate of the direct mail notice of approximately 95.1%. This reach rate is consistent with other court-approved, best-practicable notice programs and Federal Judicial Center Guidelines, which state that a notice plan that reaches<sup>3</sup> over 70% of targeted class members is considered a high percentage and the “norm” of a notice

---

<sup>2</sup> The remaining nine (9) undeliverable Notice of Settlement postcards received to date were received after the advanced address search was run and will be included in the next round of searches.

<sup>3</sup> FED. JUD. CTR., *Judges’ Class Action Notice and Claims Process Checklist and Plain Language Guide* (2010), available at <https://www.fjc.gov/sites/default/files/2012/NotCheck.pdf>. The guide suggests that the minimum threshold for adequate notice is 70%.

### CERTIFICATION

I declare under penalty of perjury under the laws of the State of Oklahoma that the above is true and correct to the best of my knowledge and that this Declaration was executed on October 9, 2023 in Inver Grove Heights, Minnesota.

There is a proposed Settlement in a putative class action lawsuit filed against Presidio Petroleum, LLC, ("Presidio") called Suzanne Broadbent v. Presidio Petroleum, LLC, Case No. CV-2022-15, in the District Court of Roger Mills County, Oklahoma. The Lawsuit claims Presidio failed to pay statutory interest on payments made outside the time periods of the Production Revenue Standards Act ("PRSA") for oil-and-gas production proceeds from wells in Oklahoma.

**Who Is Included?**

You may be a member of the Settlement Class if you received payments for proceeds from the sale of oil and gas production from Presidio for wells in the State of Oklahoma with check dates between January 25, 2018, up to and including November 30, 2022, or such proceeds were remitted to unclaimed property divisions of any government entity by Presidio during that time. The Class has been preliminarily approved for settlement only. There are exclusions.

**Why am I receiving this notice?**

Presidio's records indicate you may be a member of the Settlement Class.

**What does the settlement provide?**

The proposed Settlement provides monetary benefits of \$475,000.00 that will be distributed according to the terms of the Settlement Agreement, the documents referenced in and exhibits to the Settlement Agreement, and orders from the Court. Plaintiff's Counsel will seek attorneys' fees up to 35% of the Settlement, plus

reimbursement of litigation expenses and administration costs, all to be paid from the Settlement. Plaintiff will seek a contribution award of up to \$12,000 from the Settlement

**What are my legal rights?**

You do not have to do anything to stay in the Settlement Class and receive the benefits of the proposed Settlement. If you stay in the Settlement Class, you may also object to the proposed settlement by following the instructions from the Court (available on the website) by October 24, 2023. If you stay in the Settlement Class, you will be bound by all orders and judgments of the Court, and you will not be able to sue Defendant or others identified in the Settlement Agreement from claims described therein. You may appear through an attorney if you so desire.

**What are my other options?**

If you do not wish to participate in or be legally bound by the proposed Settlement, you may exclude yourself by opting out no later than October 24, 2023, by following the instructions from the Court (available on the website). If you opt out, you will not receive any benefits from the Settlement and will not be bound by it or the judgment in this case.

**When will the Court decide whether to approve the proposed Settlement?**

A Final Fairness Hearing has been scheduled for November 14, 2023, at 9:30 a.m. CT at the Roger Mills County Courthouse, 500 East Broadway, Cheyenne, Oklahoma 73628. You are not required to attend the hearing, but you or your lawyer may do so if you wish.

*A court authorized this Notice. This is not a solicitation from a lawyer.*

<p><b><i>If you belong to the Settlement Class and this Settlement is approved, your legal rights will be affected. Read this Notice carefully to see what your rights are in connection with this Settlement.<sup>1</sup></i></b></p>
--

If you received payment of oil-and-gas proceeds from production from an Oklahoma oil and/or gas well from Defendant Presidio Petroleum, LLC ("Presidio" or "Defendant") issued between January 25, 2018, and November 30, 2022, you may be a member of the Settlement Class in the Litigation captioned above and described below ("the Litigation"). The Court has directed this Notice to be provided to all Class Members. Capitalized terms not otherwise defined in this Notice shall have the meanings attributed to those terms in the Settlement Agreement referred to below and available at [www.broadbentsettlement.com](http://www.broadbentsettlement.com).

This Notice generally explains the claims being asserted in the Litigation, summarizes the Settlement, and tells you about your rights to remain a Class Member or to timely and properly submit a Request for Exclusion (also known as an "opt out") so that you will be excluded from the Settlement. This Notice provides information so you can decide what action you want to take with respect to the Settlement before the Court is asked to finally approve it. If the Court approves the Settlement and after the final resolution of any objections or appeals, the Court-appointed Settlement Administrator will issue payments to final Class Members, without any further action

---

<sup>1</sup> This Notice is a summary of the terms of the Settlement Agreement in this matter. Please refer to the Settlement Agreement for a complete description of the terms and provisions thereof. A copy of the Settlement Agreement is available for free at [www.broadbentsettlement.com](http://www.broadbentsettlement.com). The terms, conditions, and definitions in the Settlement Agreement qualify this Notice in its entirety.

from you. This Notice describes the lawsuit, the Settlement, your legal rights, what benefits are available, who is eligible for them, and how to get them.

The Settlement Class in the Litigation consists of the following individuals and entities:

All non-excluded persons or entities to whom Presidio: (1) made Late Payments for oil and gas proceeds from Oklahoma wells during the Claim Period, and (2) the payments did not include statutory interest under Oklahoma's Production Revenue Standards Act ("PRSA"), 52 O.S. § 570.1 *et seq.* A "Late Payment" for purposes of this class definition means payment of proceeds during the Claim Period from the sale of production from an Oklahoma oil and/or gas well after the statutory periods identified in 52 O.S. § 570.10. Late Payments do not include any payment made on account of prior period adjustments.

Excluded from this class are: (1) Defendant, its affiliates, predecessors, and employees, officers, and directors; (2) agencies, departments, or instrumentalities of the United States of America or the State of Oklahoma; (3) any Indian Tribe as defined at 30 U.S.C. § 1702(4) or Indian allottee as defined at 30 U.S.C. § 1702(2); (4) publicly traded oil and gas companies and their affiliates; (5) officers of the court; and (6) Dan McClure, Kelly McClure Callant, FourPoint Energy, LLC, and Unbridled Resources, LLC.

The Claim Period means payments made or issued by Defendant dated between January 25, 2018, and November 30, 2022, subject to the terms of the Settlement Agreement regarding Released Claims. If you are unsure whether you are included in the Settlement Class, you may contact the Settlement Administrator at:

**TO OBTAIN THE BENEFITS OF THIS PROPOSED SETTLEMENT,  
YOU DO NOT HAVE TO DO ANYTHING.**

**I. General Information About the Litigation**

The Litigation seeks damages for Defendant's alleged failure to pay statutory interest on allegedly late payments under Oklahoma law. Defendant expressly denies all allegations of wrongdoing or liability with respect to the claims and allegations in the Litigation. The Court has made no determination with respect to the merits of any of the parties' claims or defenses. A more

complete description of the Litigation, its status, and the rulings made in the Litigation are available in the pleadings and other papers maintained by the Court Clerk for the District Court of Roger Mills County, Oklahoma, in the file for the Litigation.

**II. The Settlement, Attorneys' Fees, Litigation Expenses, Case Contribution Award, And The Settlement Allocation And Distribution To The Class**

On August 21, 2023, the Court preliminarily approved a Settlement in the Litigation between Plaintiff, on behalf of itself and the Settlement Class, and Defendant. This approval and this Notice are not an expression of opinion by the Court as to the merits of any of the claims or defenses asserted by any of the parties to the Litigation, or of whether the Court will ultimately approve the Settlement Agreement.

In settlement of all claims alleged in the Litigation, Defendant has agreed to pay Four Hundred Seventy-Five Thousand Dollars (\$475,000.00) in cash ("Gross Settlement Fund"). In exchange for the payment noted above and other consideration outlined in the Settlement Agreement, the Settlement Class shall release the Released Claims (as defined in the Settlement Agreement available for review and download at [www.broadbentsettlement.com](http://www.broadbentsettlement.com)) against the Released Parties (as defined in the Settlement Agreement). The \$475,000.00 cash payment is referred to as the "Gross Settlement Fund." The Gross Settlement Fund, less Class Counsel's Attorneys' Fees and Litigation Expenses and Administration, Notice, and Distribution Costs, and other costs approved by the Court (the "Net Settlement Fund"), will be distributed to final Class Members pursuant to the terms of the Settlement Agreement. The Settlement Agreement also includes Future Benefits for the Settlement Class.

Class Counsel intends to seek an award of Attorneys' Fees of not more than 35% of the Gross Settlement Fund. Co-Lead Class Counsel, David R. Gleason of Moricoli Kellogg & Gleason, PC, and Randy C. Smith, of Randy C. Smith PLLC have been litigating this case without any payment whatsoever, advancing thousands of dollars in expenses. At the Final Fairness Hearing, Plaintiff's Counsel will also seek reimbursement of the litigation and administration expenses incurred in connection with the prosecution of this Litigation and that will be incurred through final distribution of the Settlement, which is estimated to be approximately \$55,000.00. In addition, Plaintiff intends to seek a case contribution award for its representation of the Class, which amount will not exceed \$12,000.00, to compensate Plaintiff for her time, expense, risk and burden as serving as Class Representative.

The Court must approve the Allocation Methodology, which describes how the Settlement Administrator will allocate the Net Settlement Fund. The Net Settlement Fund will be distributed by the Settlement Administrator after the Effective Date of the Settlement. The Effective Date requires the exhaustion of any appeals, which may take a year or more after the entry of Judgment. The Settlement may be terminated on several grounds, including if the Court does not approve or materially modifies the terms of the Settlement. If the Settlement is terminated, the Litigation will proceed as if the Settlement had not been reached.

This Notice does not and cannot set out all the terms of the Settlement Agreement, which is available for review at [www.broadbentsettlement.com](http://www.broadbentsettlement.com). This website will also include this Notice,

the Plan of Allocation, and Plaintiff's Counsel's application for Attorneys' Fees and Litigation Expenses and other costs. You may also receive information about the progress of the Settlement by visiting the website at [www.broadbentsettlement.com](http://www.broadbentsettlement.com), or by contacting the Settlement Administrator at the address set forth above.

### **III. Class Settlement Fairness Hearing**

The Final Fairness Hearing will be held on November 14, 2023, beginning at 9:30 a.m., before the Honorable Jill Weedon, District Court Judge, at the Roger Mills County Courthouse, 500 East Broadway, Cheyenne, Oklahoma 73628. Please note that the date of the Fairness Hearing is subject to change without further notice. You should check with the Court and [www.broadbentsettlement.com](http://www.broadbentsettlement.com) to confirm no change to the date and time of the hearing has been made. At the Fairness Hearing, the Court will consider: (a) whether the Settlement is fair, reasonable, and adequate; (b) any timely and properly raised objections to the Settlement; (c) the Allocation Methodology; (d) the application for Class Counsel's Attorneys' Fees and Litigation Expenses and Administration, Notice, and Distribution Costs; and (e) the application for a Case Contribution Award for the Class Representative.

**A CLASS MEMBER WHO WISHES TO PARTICIPATE IN THE SETTLEMENT AND DOES NOT SUBMIT A VALID REQUEST FOR EXCLUSION DOES NOT NEED TO APPEAR AT THE FINAL FAIRNESS HEARING OR TAKE ANY OTHER ACTION TO PARTICIPATE IN THE SETTLEMENT.**

### **IV. What Are Your Options As A Class Member?**

#### **A. You Can Participate in the Class Settlement by Doing Nothing**

By taking no action, your interests will be represented by Plaintiff as the Class Representative and Plaintiff's Counsel. The Court has been requested to approve a Plan of Allocation which provides that no distributions will be made to any Class Member who would otherwise receive a distribution of \$5.00 or less. As a Class Member, you will be bound by the outcome of the Settlement, if finally approved by the Court. Any Judgment entered in this action, whether favorable or not, will include all Class Members who do not request exclusion. The Class Representative and Plaintiff's Counsel believe that the Settlement is in the best interest of the Class, and, therefore, they intend to support the proposed Settlement at the Final Fairness Hearing. As a Class Member, if you are entitled to a distribution pursuant to the Allocation Methodology, you will receive your portion of the Net Settlement Fund, and you will be bound by the Settlement Agreement and all orders and judgments entered by the Court regarding the Settlement. If the Settlement is approved, unless you exclude yourself from the Settlement Class, neither you nor any other Releasing Party will be able to start a lawsuit or arbitration or be part of any other lawsuit against any of the Released Parties based on any of the Released Claims.

#### **B. You May Submit a Request for Exclusion to Opt Out of the Settlement Class**

If you do not wish to be a member of the Settlement Class, then you must exclude yourself from the Settlement Class by mailing by certified mail, return receipt requested, a Request for Exclusion to be received by October 24, 2023, at 5 p.m. CT. All Requests for Exclusion must

include: (i) the Class Member's name, address, telephone number, and signature; (ii) a statement that the Class Member wishes to be excluded from the Settlement Class in *Suzanne Broadbent v. Presidio Petroleum, LLC*; and (iii) a description of the Class Member's interest in any wells for which it has received payments from Defendant, including the name, well number, county in which the well is located, and the owner identification number. Requests for Exclusion must be served on Defendant's Counsel and Plaintiff's Counsel by certified mail, return receipt requested and received no later than 5 p.m. CT on October 24, 2023. Requests for Exclusion must be mailed as follows:

**Class Co-Lead Counsel:**

Randy C Smith, OBA #21824

**Defendant's Counsel:**

Terry D. Ragsdale  
Bradley W. Welsh  
GABLE GOTWALS  
110 North Elgin Ave., Suite 200  
Tulsa, OK 74120

**If you do not follow these procedures—including mailing the Request for Exclusion so that it is received by the deadline set out above—you will not be excluded from the Settlement Class, and you will be bound by all of the orders and judgments entered by the Court regarding the Settlement, including the release of claims. You cannot exclude yourself on the website, by telephone, facsimile, or by e-mail. If you validly request exclusion as described above, you will not receive any distribution from the Net Settlement Fund, you cannot object to the Settlement, and you will not have released any claim against the Released Parties. You will not be legally bound by anything that happens in the Litigation.**

**C. You May Remain a Member of the Settlement Class, but Object to the Settlement, Allocation Methodology, Plan of Allocation, Plaintiff's Attorneys' Fees, Litigation Expenses, or Case Contribution Award**

Any Class Member who wishes to object to the fairness, reasonableness, or adequacy of the Settlement, any term of the Settlement, the Allocation Methodology, the Plan of Allocation, the request for Plaintiff's attorneys' fees and Litigation Expenses and Administration, Notice, and Distribution Costs, or the request for a Case Contribution Award to Class Representative may file an objection. An objector must file with the Court and serve upon Class Counsel and Defendant's

Counsel a written objection containing the following: (a) a heading referring to *Suzanne Broadbent v. Presidio Petroleum, LLC*, Case No. CV-2022-15, in the District Court of Roger Mills County, Oklahoma; (b) a statement as to whether the objector intends to appear at the Final Fairness Hearing, either in person or through counsel, and, if through counsel, counsel must be identified by name, address, and telephone number; (c) a detailed statement of the specific legal and factual basis for each and every objection; (d) a list of any witnesses the objector may call at the Final Fairness Hearing, together with a brief summary of each witness's expected testimony (to the extent the objector desires to offer expert testimony and/or an expert report, any such evidence must fully comply with the Oklahoma Evidence Code and the Local Rules of the Court); (e) a list of and copies of any exhibits the objector may seek to use at the Final Fairness Hearing; (f) a list of any legal authority the objector may present at the Final Fairness Hearing; (g) the objector's name, current address, current telephone number, and all owner identification numbers with Defendant; (h) the objector's signature executed before a Notary Public; (i) identification of the objector's interest in wells for which Defendant remitted oil and gas proceeds (by well name, payee well number, and county in which the well is located) during the Claim Period and identification of any payments by date of payment, date of production, and amount; and (j) if the objector is objecting to any portion of the Plaintiff's Attorneys' Fees or Litigation Expenses and Administration, Notice, and Distribution Costs, or a Case Contribution Award sought by Class Representative or Class Counsel on the basis that the amounts requested are unreasonably high, the objector must specifically state the portion of such requests he/she/it believes is fair and reasonable and the portion that is not. Such written objections must be filed with the Court and served on Plaintiff's Counsel and Defendant's Counsel, via certified mail return receipt requested, and received no later than 5 p.m. CT by October 24, 2023, at the addresses set forth above. Any Class Member that fails to timely file the written objection statement and provide the required information will not be permitted to present any objections at the Final Fairness Hearing. Your written objection must be timely filed with the Court at the address below:

Case No. CV-2022-15

PRESIDIO PETROLEUM LLC,

Defendant.

---

**DECLARATION OF ROYCE PORTER**

---

I, Royce Porter, of lawful age, upon personal knowledge, declare as follows:

1. I am an Accredited Petroleum Accountant and a member of the Council of Petroleum Accountants Societies. I have over 40 years of accounting experience and am experienced in petroleum accounting. I am the Vice President of W.A. Waterman & Co. in Oklahoma City. I have been employed as an expert witness in numerous cases involving late payment of production proceeds to oil and gas owners. I am compensated for my time in this matter at an hourly rate of \$250.00 per hour for field work and \$350.00 per hour for litigation work. My curriculum vitae is attached hereto as Exhibit 1.

2. Class Counsel in this case retained me to assist in the following tasks: (1) review of payment information provided by Defendant and verification of interest calculations; (2) an audit of Defendant's payment information by selection of ten (10) owners across various owner types and review of underlying payment records to verify accuracy of payment details provided; (3) calculation of the estimated present value of the Future Benefits provided for by the Settlement

Agreement; and (4) preparation of a proposed allocation method for the Gross Settlement Fund to class members for purposes of distribution.

3. My understanding is that the Court has preliminarily certified the following Settlement Class for settlement purposes:

All non-excluded persons or entities to whom Presidio: (1) made Late Payments for oil and gas proceeds from Oklahoma wells during the Claim Period, and (2) the payments did not include statutory interest under Oklahoma's Production Revenue Standards Act ("PRSA"), 52 O.S. § 570.1 et seq. A "Late Payment" for purposes of this class definition means payment of proceeds during the Claim Period from the sale of production from an Oklahoma oil and/or gas well after the statutory periods identified in 52 O.S. § 570.10. Late Payments do not include any payment made on account of prior period adjustments.

Excluded from this class are: (1) Defendant, its affiliates, predecessors, and employees, officers, and directors; (2) agencies, departments, or instrumentalities of the United States of America or the State of Oklahoma; (3) any Indian Tribe as defined at 30 U.S.C. § 1702(4) or Indian allottee as defined at 30 U.S.C. § 1702(2); (4) publicly traded oil and gas companies and their affiliates; (5) officers of the court; and (6) Dan McClure, Kelly McClure Callant, FourPoint Energy, LLC, and Unbridled Resources, LLC.

"**Claim Period**" means payments of proceeds from Oklahoma oil and gas wells made or issued by Defendant dated between January 25, 2018, and November 30, 2022, subject to the terms of the Settlement Agreement regarding Released Claims.

4. My understanding is that the up-front cash portion of the Settlement in this case is \$475,000.00.

5. In addition, it is my understanding that the Defendant has agreed to the following Future Benefits stated in Section 2.5 of the Settlement Agreement:

Defendant agrees to provide the following "Future Benefits": Commencing within the later of (i) 6 months after execution of the Settlement Agreement or (ii) 30 days after the date a Judgment approving the Settlement becomes Final and Non-Appealable, Defendant will implement procedures and policies reasonably calculated to accomplish the payment of statutory interest to owners in Oklahoma without awaiting a demand for such statutory interest, and will maintain such procedures (or other policies and

procedures reasonably calculated to accomplish the same result) unless or until there is a change in Oklahoma law.

6. Estimated Value of Future Benefits. Utilizing historic late payment occurrences provided by Defendant and assuming that a 12% interest rate would apply to all future late payments, I estimated that the present value of interest on future late payments to be approximately \$930,000. My estimate was based on an assumption that the Defendant would continue making late payments over the next five (5) years at the same frequency as during the last year of the Claim Period. I then utilized a five percent discount rate to determine the estimated present value of the Future Benefits for a 5-year time period.

7. Proposed Allocation Methodology. The payment history information utilized to allocate the Net Settlement Fund and to prepare Porter Exhibit 2, the Estimated Net Settlement Amount to Class Members, was provided by Defendant and, it is my understanding, contained the details of all payments for oil and gas proceeds made by Defendant during Class Period which were either (1) later than the last day of the second succeeding month after the end of the month within which the production associated with such payment was sold, or (2) for Blanchard interests later than the last day of the third succeeding month after the end of the month within which the production associated with such payment was sold. As noted below, the amounts on Porter Exhibit 2 are expected to change once the final fees and expenses awarded by the Court are known, and after all excluded parties and opt-outs are known and any other necessary adjustments made.

8. Porter Exhibit 2 is calculated based upon the principal amount of statutory interest owed on the original underlying proceeds payments that were allegedly made later than (1) the last day of the second succeeding month after the end of the month within which the production associated with such payment was sold or (2) for Blanchard interests the last day of the third succeeding month after the end of the month within which the production associated with such
